**FINDINGS OF FACT,
CONCLUSIONS OF LAW AND
ORDER**

Docket No. 2013-018

Cause No. 139-106

This Cause came on for hearing before the Utah Board of Oil, Gas and Mining (the "Board") on Wednesday, October 23, 2013, at approximately 9:15 a.m., in the Auditorium of the Utah Department of Natural Resources Building in Salt Lake City. The following Board members were present and participated at the hearing: Chairman

Ruland J. Gill, Jr., Kelly L. Payne, Carl F. Kendell and Michael R. Brown. Board Members Chris D. Hansen and Susan S. Davis were unable to attend. The Board was represented by Michael S. Johnson, Esq., Assistant Attorney General.

Testifying on behalf of Petitioner Bill Barrett Corporation (“BBC”) were David M. Watts – Landman, Jason G. Anderson – Asset Development Geologist, and Anna M. Young – Sr. Reservoir Engineer. Mr. Anderson and Ms. Young were recognized by the Board as experts in geology and petroleum engineering, respectively, for purposes of this Cause. Frederick M. MacDonald, Esq., of and for MacDonald & Miller Mineral Legal Services, PLLC, appeared as attorney for BBC.

The Division of Oil, Gas and Mining (the “Division”) did not file a staff memorandum in this Cause but nevertheless participated in the hearing. Kassidy Wallin, Esq., Assistant Attorney General, appeared as attorney for, and, with the Board’s permission, Dustin Doucet, Petroleum Engineer, asked questions on behalf of the Division. At the conclusion of BBC’s presentation in-chief, Mr. Wallin expressed that the Division had no objection to the granting of BBC’s Request for Agency Action dated June 3, 2013 (the “Request”), as conformed to the testimony and other evidence provided at the hearing.

Jerry Kenczka, Assistant Field Manager for Lands and Minerals, Vernal District Office of the United States Bureau of Land Management (“BLM”), acting not only on its

own behalf, but also in its trust capacity on behalf of the Ute Indian Tribe and Indian Allottees and as advisor to the Bureau of Indian Affairs, Uintah & Ouray Agency (“BIA”), filed a Letter on October 21, 2013 expressing the BLM’s support for the granting of the Request. However, no BLM representative made an appearance at the hearing.

No other party filed a response to the Request and no other party appeared or participated at the hearing.

The Board, having considered the testimony presented and the exhibits received into evidence at the hearing, being fully advised, and for good cause, hereby makes the following findings of fact, conclusions of law and order in this Cause.

FINDINGS OF FACT

1. BBC is a Delaware corporation with its principal place of business in Denver, Colorado. BBC is duly qualified to conduct business in the State of Utah, and is fully and appropriately bonded with all relevant, Federal, Indian and State of Utah agencies.

2. By Order entered on January 16, 1974 in Cause No. 131-24 (the “131-24 Order”), the Board established the following Duchesne County, Utah lands:

T2S, R1E, USM

Sec. 25: Lots 1-8, SE¼SW¼, E½ [All]

Sec. 36: All

(the "131-24 Lands"), as respective sectional drilling units for the production of oil, gas and hydrocarbons from the Lower Green River-Wasatch formations, defined by reference to the Board's Order entered on August 11, 1971 in Cause No. 131-14 as follows:

that interval below the stratigraphic equivalent of 9,600 feet depth in the "E" Log of the Carter #2 Bluebell well located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 3, Township 1 South, Range 2 West, U.S.M. (which equivalence is the depth 9,530 feet of the SP curve, Dual Induction Log, run March 15, 1968, in the Chevron #1 Blanchard well located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said [Section 3]), to the base of the Green River-Wasatch formations,

(the "Subject Formations"), and authorized one well on each such drilling unit, to be located no closer than 1,320 feet from a drilling unit boundary.

3. By Order entered April 16, 1975 in Cause No. 131-27 (the "131-27 Order"), the Board created the following special drilling units for production of oil, gas and hydrocarbons from the Subject Formations defined in the same manner, and with the same well density and setbacks, as set forth in the 131-24 Order:

((J) through (N) hereinafter the “131-27 Pilot Lands”).

4. It is apparent from the 131-27 Order itself that both the Petitioner and the Board in that Cause intended to space the entirety of Section 15, T6S, R19E, (*see, e.g.*, Paragraph 4 of the Order). However, the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of said Section 15 was, through apparent clerical error, omitted from inclusion within the drilling unit designated as “No. 21” in Paragraph B of the original 131-27 Order (and designated as “H” in Findings of

Fact No. 3 above), which error BBC requested to be rectified as part of its Request by oral motion at the hearing.

5. The 131-24 Lands, the 131-27 Extension Lands with the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 15, T6S, R19E, and the 131-27 Pilot Lands are hereinafter collectively referred to as the "Subject Lands." The 131-24 Lands and the 131-27 Pilot Lands are hereinafter collectively referred to as the "Pilot Lands."

6. By Order entered April 17, 1985 in Cause No. 139-42 (the "139-42 Order"), the Board modified the 131-24 and 131-27 Orders as relevant to the Subject Lands, among other orders, to provide that additional wells which produce from the Subject Formations may be drilled, completed, and produced on the established drilling units to a density of no greater than two producing wells in each unit. Additional wells may be drilled at the option of the operator of the unit based upon geologic and engineering data for that unit which will justify an additional well in order to recover oil, provided that said operator would have a reasonable opportunity to recover costs of drilling, completing, producing and operating a well plus a reasonable profit. Any additional well must be located at least 1,320 feet from an existing well in the unit and not closer than 660 feet from the exterior boundary of the unit, and no two wells may be drilled in the same quarter section.

7. The oil, gas and associated hydrocarbons underlying the Subject Lands as relevant to the Subject Formations are primarily fee (privately) owned, with the remainder being a mix of State of Utah (School and Institutional Trust Lands ("TLA") administered), Federally and Tribally owned. BBC has much of these oil, gas and hydrocarbons leased, such that it owns a majority of working interest/operating rights in each of the drilling units which comprise the Subject Lands.

8. As of June 1, 2013, there were two wells producing oil from the Subject Formations upon the Subject Lands and operated by BBC, as follows:

<u>Well Name</u>	<u>Location</u>	<u>DOFP</u>
FD 15-7-2-2	<u>T2S, R2E, USM</u> Sec. 7: SW $\frac{1}{4}$ SE $\frac{1}{4}$	12/27/12
FD 3-31-2-2	<u>T2S, R2E, USM</u> Sec. 31: NE $\frac{1}{4}$ NW $\frac{1}{4}$	4/3/13

In addition, as of June 1, 2013, the following wells were spud (but not yet completed) upon the Subject Lands, which are operated by BBC and targeting production from the Subject Formations:

<u>Well Name</u>	<u>Location</u>	<u>Spud Date</u>
FD 9-25D-2-1 (Directional)	<u>T2S, R1E, USM</u> Sec. 25: NE $\frac{1}{4}$ SE $\frac{1}{4}$ (SHL) NE $\frac{1}{4}$ SE $\frac{1}{4}$ (BHL)	4/30/13
FD 3-32-2-2	<u>T2S, R2E, USM</u> Sec. 32: NE $\frac{1}{4}$ NW $\frac{1}{4}$	3/19/13

FD 11-30D-2-2 (Directional)	<u>T2S, R2E, USM</u> Sec. 30: NE $\frac{1}{4}$ SW $\frac{1}{4}$ (SHL) NE $\frac{1}{4}$ SW $\frac{1}{4}$ (BHL)	5/15/13
FD 3-30D-2-2 (Directional)	<u>T2S, R2E, USM</u> Sec. 30: NE $\frac{1}{4}$ NW $\frac{1}{4}$ (SHL) NE $\frac{1}{4}$ NW $\frac{1}{4}$ (BHL)	5/8/13

9. By Order entered on December 31, 2008 in Cause No. 139-84 (the “139-84 Order”), the Board modified many other orders applicable to the Altamont/Bluebell/Cedar Rim – Sink Draw fields, but only as relating to lands other than the Subject Lands, to allow up to four (4) wells producing from the Subject Formations upon each drilling unit established under said orders, to be drilled at the option of the operator and with the operator’s full discretion as to the development of the hydrocarbon resources; provided that each additional well shall be no closer than 1,320 feet from an existing unit well completed in and producing from the formations and no closer than 660 feet from the drilling unit boundary. The Board did not specifically address whether the authorized wells are to be just vertical/deviated wells or may also include horizontal wells.

10. As relating to the Subject Formations, the Board, in the 139-84 Order, expressly found:

- a) [P]roduction occurs from multiple, generally low-matrix porosity, thin-bedded sandstones, forming a highly complex series of isolated and discontinuous beds that are randomly distributed vertically over a several

thousand-foot interval. Normally, the productive beds are separate and distinct and not in communication with each other [Finding of Fact No. 15];

- b) [M]any of the productive beds are not correlatable from well to well and will not afford communication between wells within several hundred feet of one another [Findings of Fact No. 16];
- c) [E]vidence from mudweights, pressure data, well logs, and production data show virgin and near virgin zones exist and reserves that otherwise would not be produced will be recovered by the drilling, completion and production of third and fourth wells [Findings of Fact No. 21]; and
- d) The drilling of increased density wells under existing orders within [the area subject to the 139-84 Order] demonstrates:
 - Second wells have recovered in excess of 55 MMBOE of incremental oil to date;
 - Second and third wells drilled discovered incremental oil in new reservoirs not intersected by earlier wells;
 - Second and third wells do not drain the reserves in the drilling units and are nearing the end of their economic lives;
 - The average well drainage area [for the area subject to the 139-84 Order] is approximately 160 acres;
 - Some of the reservoirs intersected by second and third wells do communicate with the earlier wells drilled, but also encountered incremental reserves (new reservoirs) that have not been previously encountered and produced;
 - Despite some pressure communication between increased density wells with first and subsequent wells in [sic, a] section, there is not overall production interference or production acceleration between wells; and

- Production from second, third, and even fourth wells in section did not adversely affect production in the first and other pre-existing wells producing from the [Lower Green River and Wasatch formations] in the drilling units.

[Findings of Fact No. 22].

In addition, the Board expressly made the following conclusions of law:

- a) The 640-acre drilling units shall remain a uniform size and shape...and conform to the predominant pattern in the area established by the [139-42 Order]...[Conclusion of Law No. 5]; and
- b) An order authorizing the drilling of additional wells, up to four wells in the established units at the option of the operator,...will promote the public interest, economically increase ultimate maximum recovery, prevent waste, protect correlative rights of all owners, and avoid the drilling of unnecessary wells [Conclusion of Law No. 7].

11. The geologic and engineering exhibits received into evidence and the testimony received relating thereto support that the Subject Formations, as underlying the lands subject to the 139-84 Order, are sufficiently analogous, and that the Board's Findings of Fact and Conclusions of Law in the 139-84 Order as outlined in Findings of Fact No. 9 above appear to be equally applicable, to the Subject Lands. The extension of the 139-84 Order to the 131-27 Extension Lands with the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 15, T6S, R19E, to allow the drilling of up to four (4) vertical or directionally drilled wells upon the drilling units for said lands is reasonable and justified under the circumstances.

12. Notwithstanding Findings of Fact No. 11 above, the exhibits admitted into evidence and testimony received relating thereto, especially as relating to an analogous

closely located well pairing (< 1,320 feet apart) in the nearby Aurora Unit producing from the Subject Formations, reflect that:

- a) Production comes from a complex series of correlative carbonates and discontinuous sand bodies distributed vertically over a several thousand foot interval;
- b) The low matrix permeability and porosity result in a primary recovery factor of approximately 5%;
- c) The low matrix permeability and porosity and the nature of the natural fracture components of the reservoir reduce the effect of communication with the correlative carbonates and discontinuous sand bodies and indicate wells may be draining less than an equivalent 160-acre area;
- d) Wells located on an equivalent 80-acre density pattern have exhibited little or no communication even when placed in a NW-SE orientation aligning with natural fractures which should theoretically enhance communication probabilities; and
- e) A well density of at least eight (8) wells may instead be necessary to recover the resources from each drilling unit.

13. As a consequence, BBC desires to conduct a pilot program for the Pilot Lands allowing wells to be drilled up to the equivalent of 80-acre well density, *i.e.* up to eight (8) producing wells from the Subject Formations, to help determine the most efficient and economic spacing to develop the Eastern Bluebell field without waste.

14. The Pilot Lands were selected for the proposed pilot program because, other than the six wells BBC has drilled or will drill in 2013, the drilling units for said lands have not been drilled and developed and therefore remain virgin. This will allow BBC to test a "grass roots" 80-acre density pattern.

15. BBC has represented that all of the pilot wells will be drilled vertically or directionally; none will be horizontal. In addition, BBC has represented that no productive interval of a well will be located closer than 660 feet to a drilling unit boundary or 990 feet to another well producing in the Subject Formations without an exception location approval obtained in accordance with Utah Admin. Code Rule R649-3-3.

16. Furthermore, after the drilling has occurred and results analyzed, but in no event more than two (2) years from the entry of the Order, BBC has agreed to report back to the Board on the success or failure of the pilot program.

17. It appears allowing the pilot program to proceed may lead to recovery of resources that may not otherwise be recovered, thereby preventing waste.

18. Adequate evidence was presented to reflect that the additional pilot wells may be drilled economically.

19. A copy of the Request was mailed, postage pre-paid, certified with return receipt requested, and properly addressed to all mineral, leasehold and production interest owners in the Subject Lands, and to the TLA, the BIA and the Vernal Field Office of the BLM. The mailings were sent to said parties at their last addresses disclosed by the relevant BLM, TLA, BIA and Uintah County realty records.

20. Notice of the filing of the Request and of the hearing thereon was duly published in the Salt Lake Tribune and the Deseret Morning News on August 4, 2013, in the Uintah Basin Standard on August 6, 2013 and in the Vernal Express on August 7, 2013.

21. The vote of the Board members present and participating in the hearing on this Cause was unanimous (4-0) in favor of granting the Request.

CONCLUSIONS OF LAW

1. Due and regular notice of the time, place and purpose of the hearing was properly given to all parties whose legally protected interests are affected by the Request in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§ 40-6-5(3)(b) and 40-6-6.

3. In addition to the exhibits admitted into evidence and testimony received in the hearing, the Board took judicial notice of the exhibits admitted into evidence and testimony received in the hearing on Cause No. 139-84 pursuant to Utah Code Ann. § 63G-4-206(1)(b)(iv).

4. The Board has the legal authority, pursuant to Utah Code Ann. § 40-6-5, to correct clerical errors in its previous orders, including the authority to correct the 131-27 Order to include the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 15, T6S, R19E, as part of Drilling Unit No. 21 described in Paragraph B of said Order (and as “H” under Findings of Fact No. 3 above).

5. By virtue of the 131-24 and 131-27 (as corrected herein) Orders, the Board made the legal determination and declared the Subject Formations to constitute one “pool” or “common source of supply” of oil, gas and hydrocarbons as relating to the Subject Lands as that phrase is defined in Utah Code Ann. § 40-6-2(19).

6. Correlative rights to production of oil, gas and hydrocarbons from the Subject Formations within each specified drilling unit were established by virtue of the 131-24 and 131-27 (as corrected herein) Orders and pursuant to the holding of *Cowling v. Board of Oil, Gas and Mining*, 830 P.2d 220, 226 (Utah 1991).

7. Correlative rights will be protected by virtue of pooling or communitization agreements conforming to the existing 131-24 and 131-27 (as corrected herein) Orders, pursuant to which production will be allocated to all production interest owners within the applicable drilling unit regardless of the number of wells producing from the Subject Formations. Furthermore, the correlative rights of the parties in adjacent drilling units and lands are protected by virtue of maintaining the same drilling unit boundary setbacks as currently exist under the 139-42 and 139-84 Orders.

8. The Board recognizes that it has previously authorized 80-acre well density pilots on sectional drilling units for production from the Subject Formations in its Orders entered in Cause Nos. 139-89 and 139-91. The granting of the Request for a similar pilot program on the Pilot Lands is therefore consistent, fair, just and reasonable given the prior precedent and under the circumstances outlined above.

9. The relief granted hereby will result in consistent and orderly development and the greatest recovery of oil, gas and associated hydrocarbons from the Subject Formations underlying the Subject Lands without waste, will adequately protect the correlative rights of all affected parties, and is just and reasonable under the circumstances.

10. BBC has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements for the granting of the Request.

ORDER

Based upon the Request, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Request in this cause is granted.
2. Paragraph B of the 131-27 Order is hereby amended and corrected to include within "Drilling Unit No. 21" identified therein the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 15,

T6S, R19E, USM. The Board's secretary is directed to make the appropriate conforming notations in the Board's and Division's records.

3. The 139-84 Order is hereby extended to the 131-27 Extension Lands, with the correction to Drilling Unit "H" to include the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 15, T6S, R19E, as provided in Order No. 1 above, to allow up to four (4) producing wells from the Subject Formations upon the existing drilling units, subject to the same setback limitations set forth in said order.

4. The 131-24, 131-27 and 139-42 Orders are hereby modified to authorize the drilling, on a pilot basis, of additional wells, upon the established drilling units for the Pilot Lands as defined above for production of oil, gas and associated hydrocarbons from the Subject Formations up to the equivalent of an approximate 80-acre well density; provided, however, that within a reasonable time after analysis of the pilot program results but, in no event no more than two years after entry of the Order, BBC report back to the Board on the success or failure of the program.

5. No productive interval of any well so authorized on the Pilot Lands may be located closer than 660 feet to a sectional boundary or 990 feet to another well producing from the Subject Formations without an exception location approval obtained in accordance with Utah Admin. Code Rule R649-3-3.

6. Pursuant to Utah Admin. Code Rules R641 and Utah Code Ann. § 63G-4-204 to 208, the Board has considered and decided this matter as a formal adjudication.

7. This Order is based exclusively on evidence of record in the adjudicative proceeding or on facts officially noted, and constitutes the signed written order stating the Board's decision and the reasons for the decision, all as required by the Administrative Procedures Act, Utah Code Ann. § 63G-4-208 and Utah Administrative Code Rule R641-109.

8. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. § 63G-4-208(e) - (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code Ann. §§ 63G-4-401(3)(a) and 403. As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. § 63G-4-302, entitled, "Agency Review – Reconsideration," states:

(1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute final agency action,

any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.

(b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.

(2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.

(3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.

(b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

Id. The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of signing of the final order or decision for which the rehearing is sought. A copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

Id. See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. § 63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any

party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

For all purposes, the Chairman's signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.
